## Introduction

NotePal U2 is a simple stand that elevates your notebook to a comfortable viewing angle and allows you to work with a better posture. The aluminum meshed design ensures that heat dissipates quickly to prevent your notebook from overheating. Its slim and lightweight feature gives you the absolute convenience to take it anywhere you go with easy stow away.

NotePal U2 (fan edition) with two removable fans provides adjustment and focused dissipation on the hottest spot of your notebook, no matter it's CPU, GPU or HD position.

# Notepal U2

## Product Features

### Slim

- Slim shape and light weight design offers great portability.

### Sturdy

- Dependable sturdy structure for long-term laptop use.

### Protection & Storage

- Light weight notebook cooler that is also great for protecting and storing your notebook.
- Accommodate most 14-15" laptops, up to 17" size.

### Comfort

- Ergonomic angle for comfortable viewing height and better working position.

### Cooling

- Efficient dissipation design to prevent overheating.

### Removable Fans

- Patent-pending removable fans fasten on the notebook cooler better than average removable fans.
