Installing or uninstalling SIM Card, Battery, and Memory Card

To remove the back cover

1. Please turn over your phone with the back cover facing up.

2. Please remove the back cover from the top.

3. Pull the back cover with your fingertip and remove it.

SIM card

The SIM card contains your phone number, memory storage, and details of network service.

To install the SIM card

Make sure the gold contacts are facing down and the cut-off corner is facing toward the SIM card slot. There are two slots for SIM cards. Upper slot is for SIM2, and SIM1 slot is on the underside.

To remove the SIM card

1. First, remove battery.
2. Use your finger to slide the SIM card out of card slot.

Battery

Your phone comes with a rechargeable battery. Battery life varies depending on the network, used applications, and the type of connections attached to your phone.

To install the battery

Make sure the contact of the battery is close to connectors in the battery slot.

To remove the battery

Use your fingertip to lift the battery, then remove it.

NOTE:

To ensure battery performance and avoid risk from fire:

- Use only the original battery designated for the phone.
- Do not store the battery in temperature lower than -10°C or higher than 45°C

To replace the back cover

1. Please insert the hook on the bottom of back cover into the slot.

2. Then, press four points of back cover fully until hear clicks.

Memory card

You may need a microSD card to store photos, music, videos and other data.

To install the memory card

1. Insert the memory card with the gold contact facing down.
2. Push the memory card until it clicks into slot.

To remove the memory card

1. For safe removal, tap Application Drawer > Settings > Storage > Unmount SD card.
2. Push the memory card to eject it from the slot.

Charging the Battery

When you take your phone out of box for the first time, the battery isn't at full of power. Please charge the battery fully before using.

1. Connect the USB cable to the AC adapter, and then, connect to the device via the USB cable.
2. Plug the AC adapter to a socket start to charge.

NOTE:

- The battery can also be charged when you connect your phone to a computer.
- To ensure safety, do not remove the battery from the phone while the AC adapter is connected or while it is being charged.

Turning the Phone On or Off

After installing the SIM card and charging the battery, you are now ready to turn your phone on.

To turn on your phone

Press and hold the power button until the phone shortly vibrates.

To turn off your phone

1. Press and hold the power button for several seconds.
2. A pop-up window appears, and then tap Power off.
3. Select OK to confirm.

To set your phone to the sleep mode

To set your phone to sleep mode, press the power button briefly. It will turn the display off. To turn the display on, press the power button briefly again.
