English

Before operating the unit, please read this guide thoroughly and retain it for future reference.

WARNING

To reduce the risk of fire, do not cover the ventilation of the apparatus with newspapers, tablecloths, curtains, etc. And do not place lighted candles on the apparatus. To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus. Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.

Do not expose batteries or apparatus with battery-installed to excessive heat such as sunshine, fire or the like.

As the main plug is used to disconnect the unit from the mains, connect the unit to an easily accessible AC outlet. Should you notice an abnormality in the unit, disconnect the main plug from the AC outlet immediately.

The unit is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet, even if the unit itself has been turned off.

The nameplate and important information concerning safety are located on the bottom exterior.

CAUTION

Danger of explosion if battery is incorrectly replaced. Replace only with the same type.

This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Disposal of waste batteries and electrical and electronic equipment (applicable in the European Union and other European countries with separate collection systems)

This symbol on the product, the battery or on the packaging indicates that the product and the battery shall not be treated as household waste. On certain batteries this symbol might be used

in combination with a chemical symbol. The chemical symbols for mercury (Hg) or lead (Pb) are added if the battery contains more than 0.0005% mercury or 0.004% lead. By ensuring these products and batteries are disposed of correctly, you will help prevent potentially negative consequences for the environment and human health which could otherwise be caused by inappropriate waste handling. The recycling of the materials will help to conserve natural resources. In case of products that for safety, performance or data integrity reasons require a permanent connection with an incorporated battery, this battery should be replaced by qualified service staff only. To ensure that the battery and the electrical and electronic equipment will be treated properly, hand over these products at end-of-life to the applicable collection point for the recycling of electrical and electronic equipment. For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the applicable collection point for the recycling of waste batteries. For more detailed information about recycling of this product or battery, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product or battery.

WARNING

- Battery may explode if handled incorrectly. Do not recharge, disassemble or dispose of in fire.
- Dispose of used battery promptly and in accordance with local environmental laws and guidelines. Keep away from children.

Precautions

- Operate the unit on the power sources specified in "Specifications."
- To disconnect the power cord (mains lead), pull it out by the plug, not the cord.
- Do not leave the unit in a location near a heat source, such as a radiator or airtight, or in a place subject to direct sunlight, excessive dust, mechanical vibration, or shock.
- Allow adequate air circulation to prevent internal heat build-up. Do not place the unit on a surface (a rug, blanket, etc.) or near materials (a curtain) that might block the ventilation holes.
- Should any solid object or liquid fall into the unit, unplug the unit and have it checked by a qualified personnel before operating it any further.
- To clean the casing, use a soft dry cloth. Do not use any type of solvent, such as alcohol or benzine, which may damage the finish.
- Do not connect the antenna lead to the external antenna.

NOTES ON LITHIUM BATTERY

- Dispose of used battery promptly. Keep the lithium battery out of the reach of children. Should the battery be swallowed, immediately consult a doctor.
- Wipe the battery with a dry cloth to assure a good contact.
- Be sure to observe the correct polarity when installing the battery.
- Do not hold the battery with metallic tweezers, otherwise a short-circuit may occur.
- Do not expose the battery to excessive heat such as direct sunlight, fire or the like.

If you have any questions or problems concerning your unit, please consult your nearest Sony dealer.

Getting Started

Connecting to an AC power source

Connect the AC power cord to a wall outlet.

About the battery as a backup power source

This unit needs a CR2032 battery (supplied) as a backup power source to keep the clock operating during a power interruption.

When to replace the battery

When the battery is discharged, "⏻" appears on the display. If a power interruption occurs while the battery is discharged, the current time and alarm will be erased.

Installing and replacing the backup battery

- 1 Keep the AC plug connected to the wall outlet and remove the battery compartment on the bottom of the unit by pulling it up while sliding the tab. (See Fig. ➊-①.)
- 2 Insert a new battery into the battery compartment with the + side facing up. To remove the battery from the battery compartment, push it out from the side marked **PUSH**. (See Fig. ➋-②.)
- 3 Insert the battery compartment back into the unit along the groove and push it from above until it clicks. (See Fig. ➌-③.) The tab locks the battery compartment.
- 4 Press **RADIO** to remove "⏻" from the display.

Notes

- When you replace the battery, do not disconnect the AC plug from the wall outlet. Otherwise, the current date, current time and alarm will be erased.
- If the unit will be left unplugged for a long time, remove the battery to avoid any damage that may be caused by leakage or corrosion.

Setting the clock

- 1 Press and hold **ENTER/TIME SET** for more than 2 seconds. You will hear a beep and the last two digits of the year will start to flash on the display.
- 2 Press + or – repeatedly to select the year, and then press **ENTER/TIME SET**.
- 3 Repeat step 2 to set the month, day and time. After setting the time, two short beeps will sound and the seconds will start incrementing from zero.

Note

- If you do not press any button for about 1 minute while setting the clock, clock setting mode will be canceled.

To change the display to indicate daylight saving time (summer time)

Change the daylight saving time (summer time) adjustment setting according to the following procedure.

Press and hold **DST** for more than 3 seconds.

"DST" appears on the display and the clock display switches to daylight saving time (summer time).

To deactivate the daylight saving time (summer time) adjustment, press and hold **DST** for more than 3 seconds again.

Operations

Playing the radio

- 1 Press **RADIO** to turn on the radio.
- 2 Set **BAND** to the desired band (**AM** or **FM**).
- 3 Tune to the desired station using **TUNING**.
- 4 Adjust the volume using **VOLUME +/-**. To turn off the radio, press **ALARM RESET/OFF**.

90 → 60 → 30 → 15
↑ OFF ↓

The radio will play for the duration you set, then shut off. To deactivate the sleep timer, press **SLEEP** repeatedly to set the sleep timer to "OFF."

To turn off the radio before the preset time

Press **ALARM RESET/OFF**.

To use both the sleep timer and alarm

You can fall asleep to the radio and also be awakened by the radio or buzzer alarm at the preset time.

Set the alarm, then set the sleep timer.

Note

- When the alarm is set to sound during the sleep timer duration, the sleep timer will be deactivated automatically when the alarm sounds.

Setting the brightness of the display

Three levels of brightness are available.

Press **SNOOZE/BRIGHTNESS**. Each time you press **SNOOZE/BRIGHTNESS**, the brightness of the display changes as follows:

High (default) → Middle → Low

Note

- When the alarm is sounding or the snooze function is active, the brightness of the display cannot be changed.

General information

Troubleshooting

Should any problems persist after you have made the following checks, consult your nearest Sony dealer.

The clock flashes "0:00" after a power interruption.

- The battery is discharged. Remove the old battery and insert a new one.

Unsatisfactory reception

- Extend the FM wire antenna fully to increase reception sensitivity.

- Rotate the unit horizontally for optimum reception. A ferrite bar AM antenna is built into the unit.

- Do not operate the unit over a steel desk or metal surface, as this may lead to interference.

The radio or buzzer alarm does not sound at the preset alarm time.

- Check that "⏻" appears on the display.

The radio alarm is activated but no sound is emitted at the preset alarm time.

- Adjust the volume using **VOLUME +/-**.

Specifications

Time display

24-hour system

Frequency range

Band	Frequency
FM	87.5 MHz – 108 MHz
AM	531 kHz – 1,602 kHz

Speaker

Approx. 6.6 cm dia., 8 Ω

Power output

100 mW (at 10% harmonic distortion)

Power requirements

230 V AC, 50 Hz
For power backup: 3 V DC, one CR2032 battery

Dimensions

Approx. 101 mm × 102 mm × 101 mm (w/h/d) including projecting parts and controls

Mass

Approx. 480 g including CR2032 battery

Supplied accessories

CR2032 battery (1)

Design and specifications are subject to change without notice.
